

OnGuard Integration for TruVision NVRs and DVRs

With advanced features and user-friendly operation, Interlogix TruVision® recorders enhance the OnGuard® access control system with effective video capture, storage and retrieval. The entire line of TruVision products has been engineered to deliver practical and reliable video surveillance, even in challenging environments.

Built on a dependable embedded Linux operating system, TruVision NVRs and DVRs offer real-time recording with IP, analog and hybrid options. Broad camera support includes Interlogix and third-party IP cameras, while remote capabilities allow users to control TruVision recorders via web browser, TruVision Navigator software or the free TruVision Navigator mobile app.

This integration also enables OnGuard to offer solutions for FCWnx migration and goVision customers. Support for TruVision recorder integration requires OnGuard 2013 v.6.6 Service Pack 1 with TruVision Add-On 1.0.4.

OnGuard 6.6 Service Pack 1 Integration Capabilities

- Reliable video capture, storage and retrieval
- Real-time recording with IP, analog and hybrid options
- Support for Interlogix and third-party cameras
- Advanced recording, storage and playback features
- Consistent, user-friendly interfaces
- Easy setup and installation
- Remote access and control via web browser, TruVision Navigator software or free mobile app
- Front and rear ethernet ports

Standard Features

- Consistent chassis, web interfaces, firmware and front panels for ease of installation, programming and operation
- Rigorous quality testing to ensure the most reliable performance
- U.S.-based technical support from experienced technicians for quick, accurate resolution of issues
- Single power supply, versus two separate plug-in PSUs on competitors' models
- Compatibility with TruVision Navigator software to accommodate changing priorities and future growth

Models Supported

- TruVision NVR 20 (TVN 20)
- TruVision NVR 21 (TVN 21)
- TruVision NVR 50 (TVN 50)
- TruVision DVR 11 (TVR 11)
- TruVision DVR 11C (TVR 11C)
- TruVision DVR 11D (TVR 11D)
- TruVision DVR 41 (TVR 41)
- TruVision DVR 42 (TVR 42)
- TruVision DVR 60 (TVR 60)
